

Did you know?

Every 2 minutes a woman is sexually assaulted...

Approximately 85% of those sexually assaulted know their assailant

45% of those assaulted will not report their rape

Rape results in about 32,000 pregnancies each year

Campus perpetrators are often serial offenders

45% of women who are raped expect to be raped again

Rape survivors are 13 times more likely to attempt suicide than others

Sexual Assault

How to be a friend to a survivor

Do's

- Be a good listener without trying to force them to take action
- Help them to get help
- Admire the courage that it took for them to confide in you.

Dont's

- Question their validity
- Make excuses for the assailant
- Force the person into take any actions that they don't want to

Lets end the cycle of abuse together
